1. Hole type refers to reverse circulation drilling (RC), diamond drilling (DD) or a combination of both: RC followed by DD (RC/DD)
2. Hole sizes for diamond drilling include HQ core (6.35 cm) and NQ core (4.76 cm). The outside diameter of the RC drill hole casing is 11.43 cm.
3. Coordinate System is UTM NAD83 Zone 11. All holes were located by differential GPS survey.
4. EG-AM-12-032 is pre-collar only. EG-AM-12-031 was pre-collared in 2012 and completed in 2014.
5. EG-AM-13-038 and EG-AM-13-039 are located 500 to 900 metres west of the Ann Mason deposit.
